

## CASCO Mistrall - venty and light

It is the CASCO top-seller for many years – and that for good reasons. The Mistrall has a remarkable wearing comfort due to fresh air ventilation, a CASCO innovation that automatically regulates the helmet climate. The equestrian always has a wonderful balanced temperature in the helmet without having to change any settings. After the current revision according to VG1, CASCO equips the Mistrall from this season with innovative Framework technology. Therewith the helmet receives a robust reinforcement frame inside the helmet and is even safer. In terms of style the Mistrall also has a CASCO innovation. Thanks to MyStyle removable strips the helmet always fits to the outfit and mood of the rider. In the blink of an eye you can change the colour of the CASCO strips and the helmet matches your tournament- or bad weather outfit. At the same time the CASCO strips are reflecting and ensure thereby a better visibility at dusk and night. The rider is clearly visible from all sides as the CASCO strips run over the entire surface of the helmet. The MISTRALL is also very easy to clean. Simply wipe with a damp cloth and you're done. And of course, the helmet is unique due to the distinctive CASCO design.

**Recommended sales Price:** 110 €

**Sizes:** S 54 – 56 cm, M 57 – 58 cm, L 59 – 62 cm
